“My papa Lou Lou”

It's just been over 1 month since you slipped away,
I keep waiting for you to turn the corner our squeaky pooh, just to come and say your good morning, I miss watching your collapsing roll overs that you do for a tummy rub there's just so much to say I can't bring myself to turn your Alarms off they still ring on for your morning and night medicine. We listen to your songs Lou to get by.
Everyone misses you so much Coco, Rex took it the hardest he cried so much and tried so much to wake you up, but we know it was for the best Lou Lou.

I'm so happy that your not in pain anymore and now you can run free with wazzer I bet he's turned upside down with joy smiling away with all his teeth showing that was razor's speciality, happy that your there with him. I wish I could see the two of you to kiss you both and have the biggest slumber sleep over together.

Never forget how much Mummy loves you, Sasha,Tanya and Daddy sends you the biggest huggles ever Sasha misses her cup of tea buddy, and she says don't eat too much Haribo sweeties with razor.
I know your Grandma will make the best tikken for you.

But for now Bye bye my Loush one day we'll be together you will forever remain in our hearts and will never be replaced or forgotten.

Love you always ...one love Mai xxxxxxxxxx
