All Things Boris

Touching your hand with his paw
Checking his correspondence
Stretching his head back so he can have his chin groomed
Eyes lighting up when he sees little white plates
Paw prints across the bed
Being a companion when you're ill
Early morning wake-up meows
In – Out – In - Out –In – Out
Sitting on your lap at the computer or watching TV
Little kitty lips, kitty eyebrows, kitty nose and kitty whiskers
Staring at his empty dishes when he wants food
Pawing the patio door
Teasing touches with his flicking tail
Big licky tongue all over his catnip toys
Deep rumbly purrs
Being a trickster
Lapping his bedside water
Snoozing on two cushions
A shadow down the patio stairs at night
Taking the sun on his bench
Exploring bags & boxes
Supervising food preparation from the top counter
Snuggling under the bed covers
Giving us the priceless gifts of his trust and affection
Being the most handsome, faithful, and loving companion

Being Boris
