Our Little Girl
Beadle

Your reputation preceded you.
Known as the
"very angry cat" at the vets,
always ready for a swift bite
or a leg maul.
You had a rough start
in life but won over
our hearts with your larger
than life personality.

Once seen never forgotten.
You melted our hearts with your gentle side,
when you allowed us a cuddle, of course on your terms or
when we were sick you were the most caring nurse.
You have now gone to join your brother Mr Jake, so you can
once again wind each other up as you did in life.

We miss you everyday baby girl & our hearts have an empty
spaces which will never be filled.
Thank you for being such a character and giving us such good
memories & war wounds!
Remember the monkeys live in the trees & that we love you.

Until we are together again,
Mummy & Daddy will never forget you.
Wait for us with your brother, thank you for blessing our lives
with your company.

Brightest Blessings
