Bruno & Ben

To my beautiful Bruno who I lost three years ago
I never stop thinking about you, I'll always miss you & even with all your health problems you were always such a happy little dog. Now your brother Ben who got to the grand old age of 17 has crossed the Rainbow Bridge to be with you, he was my companion for last three years he was a great help when I lost you, we both really missed you & now life will never be the same without my two boys, look after each other.

One day we will all be together again

xx
