Sarah Penny

10.05.06 - 08.01.21

Our special girl was an awesome force who changed our lives in so many ways.
She helped me find a new career &
in turn, helped thousands of other dogs
& their Mums & Dads, showing them the benefits of canine physical therapy. She was the biggest critic when people practised their skills on her – her paws going up in the air if they weren't doing it right.
Her head going down with a grin when they were.
A real showgirl with Oscar winning performances for every occasion. To help me and others was her purpose in life.
She was a true Diva carrying the spotlight with her all the time.
Always centre stage. That's our girl. Her wilfulness, determination, grit and sassiness kept her going for so long.
She had the best time and will be so missed by everyone who ever met her. I look forward to getting the back of my knee wet again with her licks in a "Come on Dad" way.

Goodnight pretty girl.
